

BALTIMORE CITY PUBLIC SCHOOLS

Baltimore City Public Schools

Ongoing Learning at Home *Grade 5: Week of April 6th – 10th*

Dear Families,

Welcome to the ongoing learning resource! This is your weekly guide to support your child’s learning while schools are closed for COVID-19. We understand that many families are rearranging their schedules to accommodate this time; however, we would like to offer these opportunities and resources to support your child’s learning while school is not in session. We encourage you to provide a scheduled time and space for your child to engage with these resources each day. Below you will find daily learning opportunities for your child to engage with throughout the week.

We are here to help you. We are setting up a help desk number, which you can use to connect with us if you or your child have questions or need support. The helpdesk includes support on assignments, technical difficulties, social supports, and social-emotional wellbeing. We are available for support from 8:00 am-7:00 pm. Contact us at 443-984-2001.

Lastly, teachers will be utilizing google classrooms as one of the ways to communicate with you and your child to follow-up on videos and lessons. To access the Google Classroom tutorial please click [HERE](#).

Daily Schedule

Link to Videos: <https://gm.greatminds.org/en-us/knowledge-for-grade-5>
