**These scholars consistently check in via virtual sessions. All other scholars are working using the learning packets. If they are unable to make their scheduled day there can join any other session or schedule a 1:1 session at any time during the week.

Session details

- Each session ends with a SEL activity, it is difficult to pull them back in when we start the session with an activity. They are more focused in the beginning when logging in. We end with a scavenger hunt or show and tell for each session.
- We do a feelings check in when beginning and end each session with the activity. I post the goals for the week on clasdojo and seesaw and the materials they need when joining.
